

A Soldier Facing Death For You

Somewhere in France today, at this very minute, there is a soldier looking straight into the face of death.

He is doing this for you.

By night and day, in storm, in rain, in cold and gloom, facing a hundred deaths he never hesitates a minute but does his duty without a thought of hesitation and without a thought of reward.

What are you doing for him today?

When you think of that man don't you want to do something to prove that you appreciate what he is doing for you?

Of course you do. Then act on your desire and buy *Liberty Bonds* which will help to safeguard him and to bring him back home.

After you have bought all you can tell your friends to do the same.
